

Important Notice: We're Transitioning to Electronic Invoicing on August 3, 2026

We're Making the Switch: E-Invoicing from August 3, 2026

Effective **August 3, 2026**, we will transition our invoicing process to the **electronic invoice (e-invoice) format**. From this date onward, you will receive your invoices by email via the **DATEV platform** in the **ZUGFeRD** format. This format combines the familiar PDF representation with structured invoice data, allowing both easy viewing and seamless digital processing.

Your Benefits

- Secure invoice delivery via the DATEV platform
- Standardized ZUGFeRD format for both viewing and digital processing
- More efficient accounting processes through structured invoice data

Important Information

- Please check whether the email address we have on file for receiving invoices is still up to date and inform us of any changes.
- Future invoices will be sent via the **DATEV E-Invoice Portal** from **e-invoice@datev.de**. Please add this sender address to your trusted or safe senders list to ensure reliable delivery of our invoices.
- Sending invoices to multiple recipients (CC) will no longer be technically possible. If necessary, please set up a forwarding rule in your email application.
- If you use **DATEV Unternehmen online (DUO)**, simply forward the email containing the **ADKL e-invoice** to your personal DUO email address, just as you do with your other incoming invoices.

We're Here to Support You

If you have any questions about our transition to e-invoicing or would like to update your invoice email address, please do not hesitate to contact us. We are also happy to assist you with implementing e-invoicing in your own organization. From **January 1, 2027**, additional legal requirements for sending electronic invoices in the B2B sector will come into effect. We have already informed you about these changes and will, of course, continue to support and advise you throughout the implementation process.
